Title 37, Oads of Federal Regulations, Section 1.56 Duty to Disclose information Material to Patentability

(a) A potent by its very nature is uffected with a public interest. The public interest in best served, and the most effective parent examination occurs when, at the time on application is being examined, the Office is owner of and evaluers the trachings of all information metatal to patentality. Each individual associated with the filing and protecution of a parent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentiality as defined in this section. The duty to disclosure information exists with respect to each pending claim until the claim is cancelled or withdrawn from consideration, or the application becomes shandoned. Information maurial to the pateneability of a claim that is cancelled or withdrawn from consideration need not be supmitted it the information is not metally to the beneathpility of any olspin turnspring made. consideration in the application. There is no duty to submit information which is not material to the patentability of any existing claim. The duty to disclosure all information knows to be material to patentiability is decreed to be satisfied if all information known to be material to paramability of my claim leaved in a patent was cited by the Office or submitted to the Office in the known to be instant to parameterize it may either resuce in a patent will be granted on an application in connection with which manner prescribed by mail 97(b)-(d) and 1.98. However, no patent will be granted on an application in connection with which fraud on the Office was practiced or snempted or the duty of disclosure was violated through bad faith or intentional relactional. The Office encourages applicants to carefully examine

(1) Prior art cited in search reports of a foreign patent office in a counterpart application, and

(2) The closest information over which individuals associated with the filing or proscoution of a patent application believe any pending claim patentably defines, to make sure that any material information contained therein is

(b) Under this section, information is material to patentability when it is not cumulative to information disclosed to the Office. already of record or being made or record in the application, and

- (1) It entablishes, by leads or in combination with other information, a prima facia case of authorizing lift of a plaint or
  - (2) It reduces, or it inconsistent with, a position the applicant takes in:
  - (1) Opposing an argument of unparentability relied on by the Office, or
  - (ii) Asserting an argument of patentability.

A prime facts case of emparentability is established when the information compele a conclusion that a chains is unparentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest CERTE IS UNPRESIDENCE WHEN IN EMPLOYED THE PRECIDENCE OF CONTRACT SAY CONSIDERATION IS GIVEN IN CHICAGO Which many bo submitted in an extempt to establish a contrary conclusion of patentability.

- (c) Individuals associated with the filing or prosecution of a papert application within the meaning of this section are:
  - (1) Each inventor turned in the application;
  - (2) Each attorney or agent who prepares or prosocutes the application; and
- (3) Every other person who is substantively involved in the preparation or prosecution of the application and who is associated with the inventor, with the sanignee or with anyone to whom there is not obligation to expign the application.
- (d) Individuals other than the attorney, agent or inventor may comply with this section by disclosing information to the antiquey, agent, or inventor.
- (c) In any continuation in part application, the duty under this section includes the duty to disclose to the Office all information known to the person to be material to patentability, as defined in paragraph (6) of this section, which became available between the filing date of the prior application and the astional or PCT international filing date of the continuation-in-part application.
